Name _____ Date _____

Everything Visual

Is there a wide split between rich and poor nations? You can find out by looking at a graph. Bar graphs provide data in a visual way. Study the graph on page 17 of KIDS DISCOVER *Industrial Revolution*. Read the information included with the graph. Then answer the questions.

1. What is the title of the graph? What is its purpose?

2. What does each bar on the graph represent?

3. For what year is the data given?

4. Did every individual in each country earn the amount shown for the country? Explain.

5. In which country did individual people have the highest income? In which country did they have the lowest income?

6. What is the difference between the highest income and the lowest?

7. Is there a relationship between industrialization and amount earned per person in a country? Explain.

8. Many countries are not shown on the graph. Why?
